Spirit is pleased to provide its Quarterly Activity report to our shareholders.

Highlights:

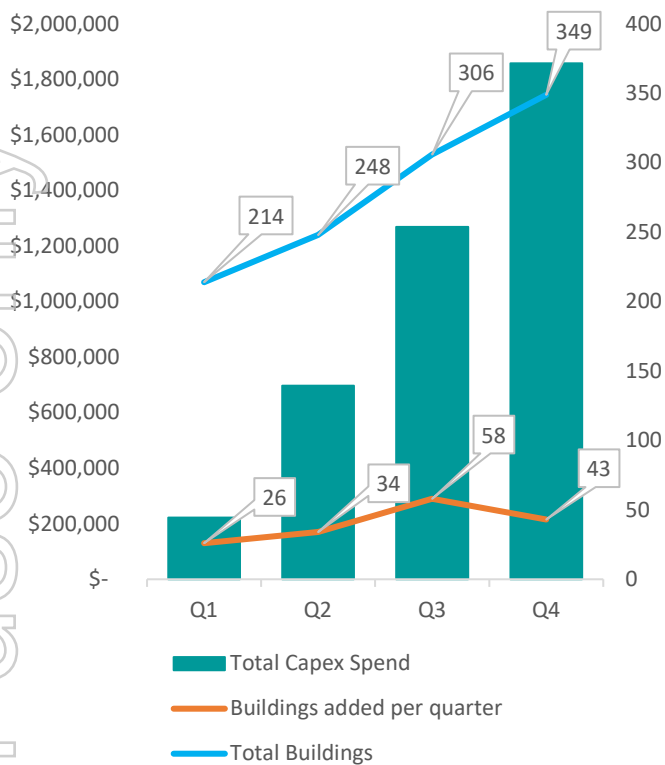

- Continued momentum saw customer receipts of \$3.35M take the total for the year to \$12.39M with a second half increase of 17% over the first half
- Net cash from operating activities increased for the quarter to \$1,082,000, producing a 13% growth in cash for the quarter, to \$1.21M
- Total Buildings connected to Spirit's network increased by 43 for a full year total of 161. This brings Spirit's total on-network ("on-net") buildings to 349
- The commercial sector grew strongly, with 140 commercial buildings being added for the year
- Debt paydown of \$210,000 reduced our senior debt facility to \$3.78m

Spirit Telecom Limited (ASX ST1) ("Spirit") is pleased to provide shareholders with the 4th quarterly activities report and Appendix 4C for the quarter ended 30 June 2017.

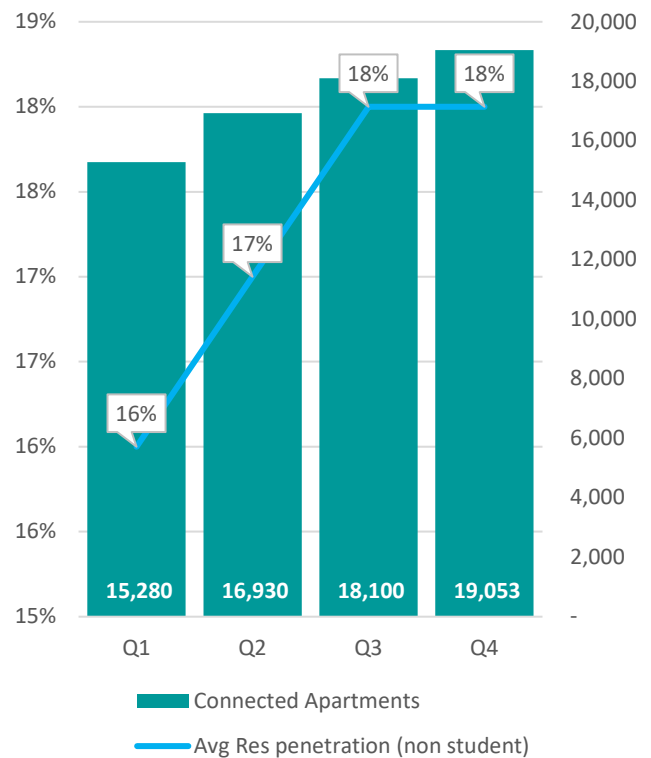

Spirit completed its first full year as an ASX listed entity and is excited about the platform of growth that has been developed.

Highlights for the year include:

- Growing customer receipts to over \$12 mill
- Growing the number of on-net buildings
- Increased penetration levels in NBN buildings due to Spirit's product quality
- Acquisition of Phone Names was successful and performing in line with management expectations
- Increasing the customer numbers within its on-net buildings

Spirit is pleased with the growth of on-net buildings to 349. The deployment of 43 buildings takes the 2nd half of the FY to 101 buildings, a 68% increase on the first half of FY2017 and continues to demonstrate the appetite the market has for Spirit's superfast internet and voice services. The Capex used in these buildings for the full year is \$1.85M, or an average of \$11,500/building. The slight increase in Capex/building can be attributable to the marquee buildings added, such as Eureka Tower in Melbourne and Southport Central on Gold Coast.

In the residential sector the number of connected apartments grew to 19,053. This represents a 53% increase for FY2017. Active customers within the residential apartments grew to 3,916. Removing the more nomadic student population, leaves a residential base of 3377. This represent an increase of 89% for FY2017. Building growth has increased, which has had a lag effect on penetration levels. Notwithstanding this penetration levels are holding up well.

Spirit's Managing Director, Geoff Neate, commented:

"We have enjoyed our first year as a listed entity and continue to be excited by the opportunities that lay ahead. We continue to pursue our growth strategy of geographic expansion and M&A activity. Our residential numbers are growing. The number of on network buildings are growing and this is leading to solid revenue growth. We continue to build foundations of growth and look forward to meeting the expectations of our customers and our shareholders"
