Wireless Broadband Solutions

Wireless Broadband gets you connected with no phone line.

- OceanView (40Km north of the Brisbane CBD) provides coverage for a majority of North Brisbane up to Caloundra in the Sunshine Coast
- The link is 340Mbps and was primarily built to service corporate clients with the added bonus of extending Business & Residential coverage

High Capacity 24GHz Backbone

- The need for bandwidth is always increasing. In November 2016 WWW built a high capacity 24GHz backbone to compliment the lower frequency licensed backbone, providing a combined capacity of over 1Gbps into the Southern Gold Coast / Northern NSW region
- This capacity enables WWW to deliver the next generation of broadband services
