FIXED WIRELESS INTERNET SERVICE WITH SUPER FAST SPEEDS!

SpiritAir is a fixed wireless business broadband service offering Super Fast Internet, symmetrical bandwidth and unlimited data. SpiritAir delivers you a 'through the air' connection to our own independent Spirit optical fibre network, overcoming the challenges in the 'last mile' to connect to our world class, corporate-grade Internet.

We use the Super Fast fibre in our core network to deliver our high-speed business-quality bandwidth via radio technology to locations which cannot be directly linked to a fixed line. This provides real choice if you are in an area where traditional fixed-line fibre services are not available or are not acceptable because they are based on either slower or more difficult deployments.

SpiritAir is also perfect for converged network solutions as it is extendable with other telephony and cloud products. It offers many possibilities for unifying your data and voice communications, making your total communications package smarter, more efficient and cost effective.

Why choose SpiritAir

- Super Fast - World Class, Serious Internet

About Spirit

Established in 2005, Spirit is an ASX listed (ST1) provider of Super Fast Internet, cloud solutions, telephony services and Phone Names.

Our network, spanning more than 15,000km across the eastern seaboard, offers services to diverse business and residential markets.

We are a genuine alternative to the NBN. We believe that Australians deserve better Internet and connected solutions and that's why we built our own network. It's different, and we think that's better. We call it Serious Internet.

Why choose Spirit?

The answer is simple. We invest in the most exciting Internet technology around. We don't compromise on reliability, speed or accessibility and we make the seemingly impossible possible by going where others cannot. You benefit with a smoother, more responsive business and happier employees and customers.
