About Spirit

Established in 2005, Spirit is an ASX listed (ST1) provider of Super Fast Internet, cloud solutions, telephony services and Phone Names.

Our network, spanning more than 15,000km across the eastern seaboard, offers services to diverse business and residential markets.

We are a genuine alternative to the NBN. We believe that Australians deserve better Internet and connected solutions and that's why we built our own network. It's different, and we think that's better. We call it Serious Internet.

Why choose Spirit?

The answer is simple. We invest in the most exciting Internet technology around. We don't compromise on reliability, speed or accessibility and we make the seemingly impossible possible by going where others cannot. You benefit with a smoother, more responsive business and happier employees and customers.
