INVESTMENT**

**YOU CHOOSE WHEN
TO UPGRADE**

**SCALABLE AND
POWERFUL NO MATTER
HOW BIG YOU GROW**

**WORKS HAND IN HAND
WITH YOUR CURRENT
PHONE SYSTEM**

**NO HARDWARE
CHANGES REQUIRED**

IMPLEMENT A HYBRID SOLUTION AND MOVE TO THE CLOUD OVER TIME

Most traditional business phone services such as ISDN will be switched off by 2020. Is your business ready to make the move? There are so many options and technologies - it's hard to choose right path for your evolving needs.

You can take your time — a smart ISDN solution delivered over the Spirit network puts the control back in your hands. Enjoy the convenience and functionality of ISDN in the Cloud, running alongside your on premises PBX.

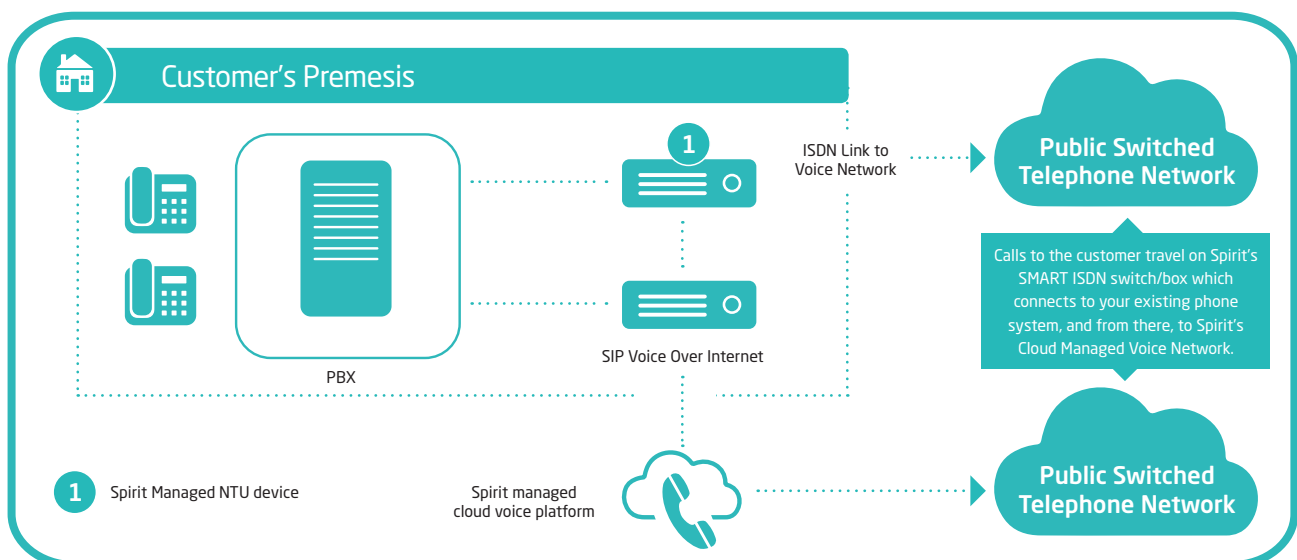

Smart ISDN, especially on Spirit's Super Fast independent network, provides a better and more cost-effective alternative to the ageing and soon-to-be decommissioned copper network across Australia.

Spirit Cloud ISDN

Spirit's smart ISDN connects your existing ISDN to the public network via your data/Internet connection, removing the need for a separate physical voice network. It works hand-in-hand with your existing telephone system, empowering your business to migrate from traditional to digital voice services at your own pace. Incoming calls continue to operate exactly as

before, so business is not disrupted and no changes are required to your hardware.

To achieve optimal quality, stability and scale, Spirit Voice Solutions perform best when running over the Spirit network. We will ensure your Internet connection is working perfectly as we have full control and can instantly troubleshoot any issues that may arise, giving your business peace of mind.

Why choose Spirit's smart ISDN?

- Reduce costs over traditional ISDN
- Move away from traditional ISDN without changing your phone system
- Take time to plan your investment into new technology
- Move to digital voice services at your own pace
- No need to change your hardware

Why choose Spirit?

Simple. We invest in the most exciting Internet technology around. We don't compromise on reliability, speed or accessibility and we make the seemingly impossible possible by going where others cannot. You benefit from an awesome Internet connection that will help your business be more productive. You'll also have happier employees and customers.

About Spirit

Established in 2005, Spirit is an ASX listed (ST1) provider of Super Fast Internet, cloud solutions, telephony services and Phone Names.

Our network, spanning more than 15,000km across the eastern seaboard, offers services to a range of business and residential customers.

Spirit offers a genuine alternative to nbn™. We believe that Australians deserve better Internet and connected solutions and that's why we built our own network. It's different and it's better.
