

# GET IN THE SPIRIT

## JOIN OUR PARTNER PROGRAM

Welcome to the most exciting  
Internet in Australia.

### WHY CHOOSE **SPIRIT**?

The answer is simple. We invest in the most exciting Internet technology around. We don't compromise on reliability, speed or accessibility and we make the seemingly impossible, possible. You benefit with a more responsive business, and you'll have happier clients too. **It's a win-win.**

We like to think of ourselves as Australia's next generation supplier of Sky-Speed wireless Internet. That's because unlike most suppliers, we deliver our Internet through the air. We use the super-fast fibre in our core network to deliver high-speed, business-quality bandwidth via radio technology – without any of the cables that used to come with it. And while we don't like to toot our own horn too much, we're pretty fast, agile, and innovative too. Couple that with our proven business model, and you've got a tailored solution that will satisfy even your most finicky customers. And best of all, it's super easy for you to join our partner program and start making commission.

### OUR NETWORK IS A **GENUINE ALTERNATIVE TO THE NBN**

In fact, we have the **fastest-rated Internet** in the whole of Australia. Seriously! Our layer 2 and layer 3 data services are delivered on super-fast fibre optic and wireless technologies, that can be deployed quickly and in hard to reach places. And best of all, our unique network is all ours. We built it to be a genuine alternative to the NBN, so that we can deliver better, faster, more reliable Internet. Or '**Sky-Speed Internet**', as we like to call it.

## WHY PARTNER WITH US?

### 1. The network is our own.

We built it so that Australians can have better, faster Internet. We're constantly expanding, and right now we have hundreds of Points of Presence (PoPs).

### 2. We go where others can't.

We deploy quickly and provide coverage in hard to reach places.

### 3. We're nimble.

And we always will be. As a smaller ASX-listed company, we don't move at a snail's pace like some giant corporations do.

### 4. We're credible.

We've been 'Internet providing' since 2005, and our network now spans more than 15,000 kms across Australia's East Coast, servicing businesses (and homes) of all sizes and needs.

### 5. We support you every step of the way.

Our dedicated team will get to know you and your business in detail, and continually support you throughout the partnership. It's no wonder we have a 97% customer satisfaction rating.

Our super-fast Internet comes through the sky up to 1gbps
